

ADVANTAGES

REMANUFACTURED HYDRAULICS

- You can provide a quality product at a competitive price for your customer.
- Your customer will appreciate saving money while still receiving a quality product that is equivalent to or better than OE specifications.

IN-STOCK PARTS, OBSOLETE MODELS, HARD-TO-FIND MODELS

- You will receive quicker delivery due to our stock availability, therefore fulfilling your customer's orders quickly.
- Your customers will be impressed by your ability to supply those hard-to-find items and to do it so quickly.

VICKERS, RACINE, DENISON

- You can trust the workmanship of the product due to the expertise of our technicians with our exclusive product line.
- You never have to wonder if our product is a disguised after market product.

ONE YEAR WARRANTY

- You will have peace of mind that the quality of the product is supported by our warranty.
- Your customers will appreciate your ability to stand behind a product for a full year.

QUICK QUOTE TURN AROUND

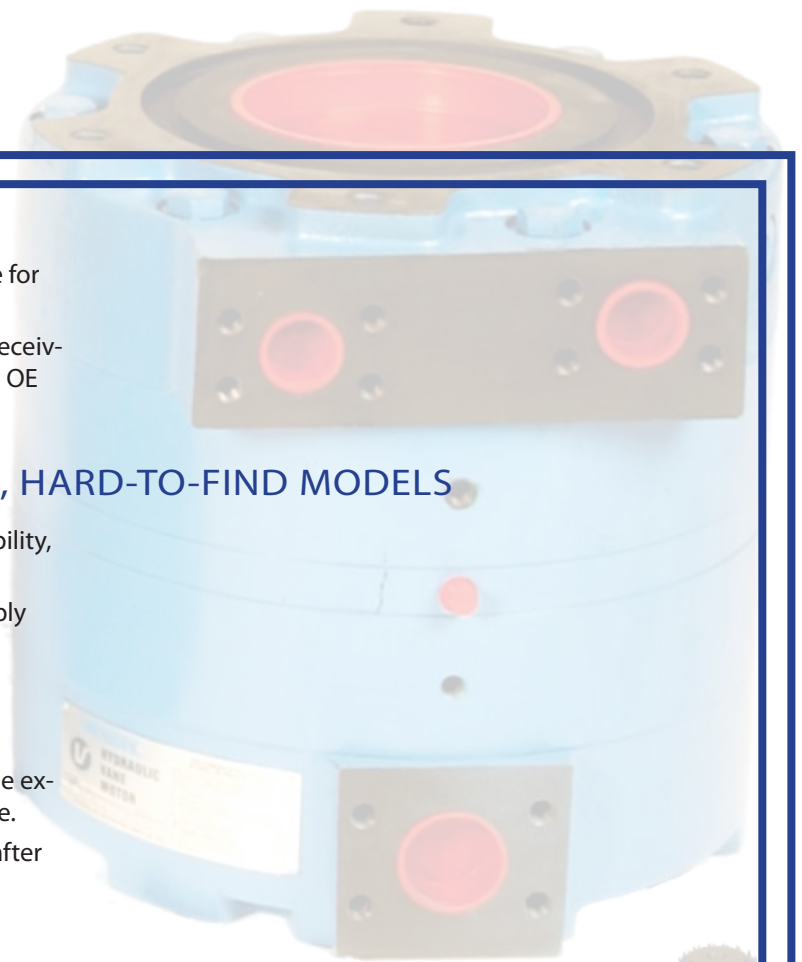

- You can communicate pricing to your customer within the same day - most times within the same hour - beating your competition to the order.
- Your customers will be impressed by your speedy response to quote requests - especially during system down-time scenarios.

BLIND DROP SHIPPING

- You will reap the cost savings of having our product directly shipped to your customer.
- Your customers will appreciate your ability to send the product quickly - especially since no Hydraulic Parts Source identifiers are included in the packaging.

NO END-USER SOLICITATION

- We respect your efforts to be successful in business and therefore will not sell to your customers.
- You never have to wonder if we are competing for the same business and undermining your ability to achieve success.
